## Mayfran International

- chip conveyors
- magnetic conveyors
- stamping scrap conveyors
- shuffle conveyors
- scrap loadout systems
- laser scrap conveyors
- coolant filtration
- chip shredding and wringing

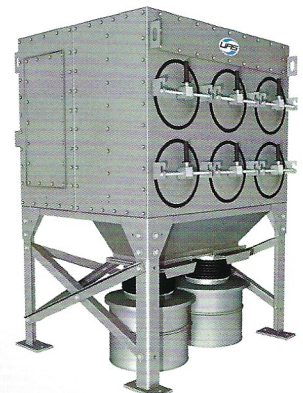

## Ruf Briquetting Systems

- grinding sludge briquetters
- metal scrap/turnings briquetters
- metal scrap shredders
- metal scrap loading equipment

## Smoghog - Dusthog

- mist collectors
- dust collectors

## Vac-u-max

- industrial vacuum cleaners
- explosion proof vacuums
- air-operated vacuums
- portable vacuums
- central vacuum systems
- submerged recovery vacuums

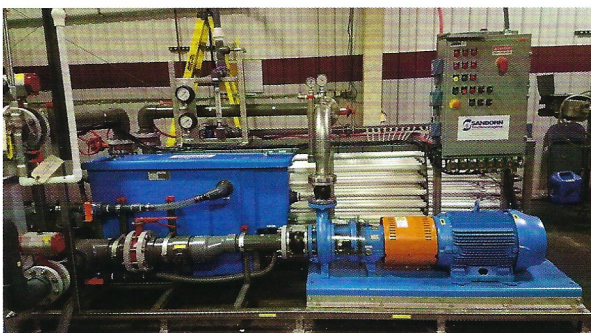

## Turmoil Fluid Coolers

- coolant coolers
- oil coolers
- spindle coolers
- process fluids coolers
- engineered chilling solutions

## Sanborn Technologies

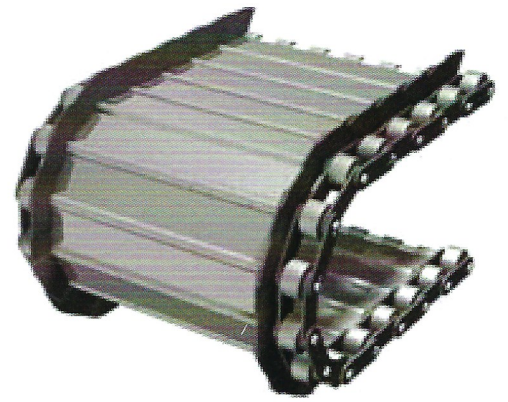

- ultra filtration systems (waste water recovery)
- coolant recovery systems
- centrifugal separators
- tramp oil separators

## Engineered solutions

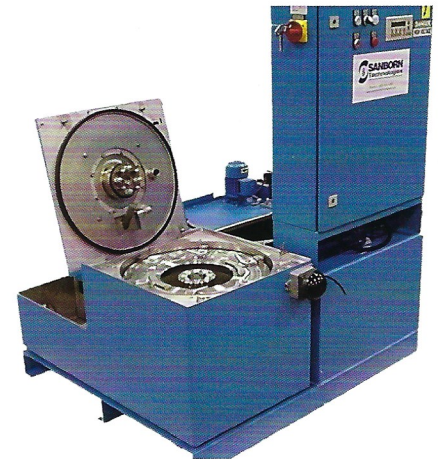

Our products filter, collect, convey, cool, and process cutting fluids, metal chips, stamping scrap, coolant mists and a variety of industrial dusts present during metal cutting and forming processes. If you have a need for metal chip or coolant handling, process fluids cooling, industrial vacuuming, or mist collection, we can help.

Replacement Steelbelt Belting

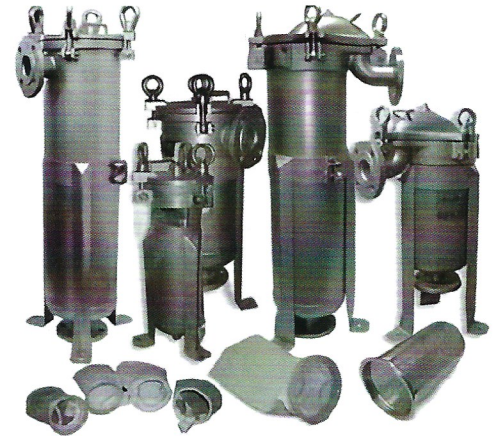

Beltless Magnetic Conveyors

Coolant Recovery Systems

Bar-type Magnetic Filters

Bag and Cartridge Filter Housings
